Test F – Final (Topics 22–24)

Length: 12 questions · **Points:** 17 · **Pass mark 75 %:** 13 points

How this test works

- The test shows you what you have mastered and what you should review. It is not a certificate.
- Work without the cheatsheets. That way you see what you have actually retained.
- Write down your answers (on paper or in a note file) before looking at the solutions.
- The solutions are in a separate file: `03_tests/test_F_final_solutions`. Only look at it when you are done.
- You assess practical tasks with the self-assessment rubric (`self_assessment`) – criterion by criterion.
- No time limit. All examples contain only made-up data. This test does not replace legal advice.

Topic 22 – Legal & Compliance

Question 1 · Multiple choice · 1 point Which statement is definitely **personal data**? - A) “The shop had 120 visitors on Monday.” - B) “Anna Sample, born 3 March 1985, living at 1 Example Street.” - C) “The average price of bread is 3.20.” - D) “It is raining in Sampletown.”

Question 2 · True/False with reasoning · 1 point “Because the AI wrote the newsletter text, the AI bears the responsibility if there’s a mistake in it.” True or false? Give your reason in one sentence.

Question 3 · Practical task · 2 points You want to have this made-up customer message analysed by an AI:

```
From: Sabine Schneider, 3 Sample Lane, 12345 Smalltown
Dear Team, I received a defective coffee machine on 5 March
(invoice 2026-4471). Since my knee surgery I have been very
sensitive, please help quickly. Tel.: 0123/456789
```

(a) Name at least three pieces of personal or especially sensitive information. (1 point)
(b) Write the anonymized version that is safe to paste into the chat. (1 point)

Question 4 · Multiple choice · 1 point Your club (fictional) wants to publish a newsletter text that the AI formulated from your bullet points. What is the most sensible approach to labeling? - A) Don't mention it at all – the AI is just a tool. - B) Clarify with the members what the club requires; if in doubt, briefly indicate it (e.g. "created with AI support"). - C) Pass the text off as "100 % human-made". - D) Don't use the text at all.

Question 5 · True/False with reasoning · 1 point "For exams at my institution, what the AI service allows in its terms of service applies." True or false? Give your reason in one sentence.

Topic 23 – Everyday Workflows & Prompt Library

Question 6 · Multiple choice · 1 point What belongs in a clean library entry? - A) Title, purpose, the finished prompt, sample result (anonymized) - B) Only the prompt – the rest is self-evident - C) Your real customer data as an example - D) The password of the AI service, so you don't forget it

Question 7 · Practical task · 2 points Complete this library entry for **executive summaries**:

```
Title: Executive Summary
Purpose: _____________________
Prompt: ______________________
Sample result: _______________________
```

Graded: a sensible purpose (1 point) and a prompt with target audience and format specification (1 point).

Question 8 · Scenario · 1 point Your library prompt has been delivering poor results for days (vague, long). What is the best next step? - A) I delete the entry and hope the problem disappears. - B) I rework the prompt (more concrete, format specification), test it and update the entry. - C) I double the prompt length with filler words. - D) I switch my AI service.

Topic 24 – Glossary & Further Learning

Question 9 · Practical task · 2 points Explain each of the following in **one sentence** for someone with no prior knowledge: - (a) **Hallucination** (1 point) - (b) **Human-in-the-loop** (1 point)

Question 10 · Multiple choice (several correct) · 2 points What belongs to the **new-feature check** for new AI features? Select all correct ones. - A) Benefit: Does it solve a real problem of mine? - B) Risk: What data and accesses does it expose? - C) Costs: What does it cost (money, limit, time)? - D) Data privacy: Where do my inputs end up? - E) Hype: Does everyone on social media have it right now?

(2 points for a fully correct selection, 1 point for exactly one mistake, otherwise 0.)

Question 11 · Multiple choice · 1 point Which source is the most reliable for current features and limits of an AI service? - A) A TikTok video from yesterday - B)

The provider’s official documentation and help pages - C) A chat with the AI itself - D) A forum post from last year

Question 12 · True/False with reasoning · 1 point “It’s best to try out new AI features immediately with my real data – that’s how I learn fastest.” True or false? Give your reason in one sentence.

Scoring

Count your points together with the solutions file. - **13–17 points:** passed - **0–12 points:** not yet passed. The solutions show you which topics you should review. Afterwards you can take the test again.
