Capstone checklist: Self-assessment **1**
1. Tick off the phases 1
2. Deliverable 1: Prompt library (10 points) 1
3. Deliverable 2: Agent-lite concept (7 points) 2
4. Deliverable 3: Safety concept (7 points) 2
5. Total 3
6. Final check 3

Capstone checklist: Self-assessment

Grade your capstone project yourself – criterion by criterion, not by gut feeling. The procedure is the same as with the self-assessment rubric of the tests: check, award points (0 / 0.5 / full), add up at the end. **When in doubt, use the lower rating.**

Total: 24 points · Pass mark: 17 points

---

1. Tick off the phases

- ☐ Final test passed (75 %)
- ☐ Phase 1: 3 tasks identified and prioritized
- ☐ Phase 2: prompt library finished (10+ entries)
- ☐ Phase 3: safety concept + agent-lite concept + reflection note

---

2. Deliverable 1: Prompt library (10 points)

No.	Criterion	Points	My rating
a	10+ prompts present, each with purpose and typical use situation	2	
b	Every prompt has a before/after version with the technique named	3	
c	At least 4 different techniques appear (role, context, constraints, format, examples)	2	
d	Test notes present – it is clear why “after” is better	1	

No.	Criterion	Points	My rating
e	No sensitive or personal data (**hard criterion**: pass or 0)	2	

Subtotal: ____ / 10

---

3. Deliverable 2: Agent-lite concept (7 points)

No.	Criterion	Points	My rating
a	Goal and trigger clearly described	1	
b	Steps broken into sub-processes, reuse of the prompt library visible	2	
c	Required connections/tools named, vendor-neutral	1	
d	Boundaries named: what the agent does not do/decide	1	
e	Safety rules concrete: approval + minimal rights + checkpoint (**hard criterion**: if any of the three is missing → 0)	2	

Subtotal: ____ / 7

---

4. Deliverable 3: Safety concept (7 points)

No.	Criterion	Points	My rating
a	Data flow described: which data flows into the prompts, where	1	

No.	Criterion	Points	My rating
b	Data classification: open / internal / confidential with a rule per class	2	
c	Risks with a counter-measure per type: hallucination, prompt injection, data leak	2	
d	Boundaries of your own setup honestly named	1	
e	Correction note: what to do when the result is wrong or something goes wrong	1	

Subtotal: ____ / 7

---

5. Total

Deliverable	Points	My points
Prompt library	/ 10	
Agent-lite concept	/ 7	
Safety concept	/ 7	
Total	**/ 24**	

- **17 points or more:** Passed – continue with section 6.
- **Below 17 points:** The missing criteria are listed above. Fix them and count again – every criterion tells you exactly what is missing.

---

6. Final check

☐ Reflection note present (mandatory part, not graded)
☐ No sensitive or personal data in the portfolio
☐ Example portfolio (“Person A”) reviewed for comparison – my values plausible?
☐ Portfolio saved in its storage location (where is it? when will I look at it again?)

For reference: Project instructions `06_capstone/project_instructions` · Example portfolio `06_capstone/example_portfolio` · Cheatsheet 25
